- Contact Number: 9550194579

Objective:-Viswanadha institute of pharmaceutical sciences had successfully organized one week Faculty development programme on “**Role of Pharmacognosy in various systems of medicines.**”

- 1) To enhance the knowledge on role of Pharmacognosy in the development of traditional and allopathic system of medicine.
- 2) To create awareness regarding traditional medicine systems.

- 3) To apply the knowledge about the safe use of herbal drugs including their side effects, toxicity, drug interactions etc.,
- 4) To strengthen the knowledge on production of new plants and herbal drugs.

Topics covered:

- a) Science of natural products in drug discovery.
- b) Recent development of Quality Control Methods for Herbal derived drug preparations.
- c) Role of Pharmacognosy in modern medicine.
- d) Role of Pharmacognosy in Homeopathy.
- e) Role of Pharmacognosy in Ayurveda.
- f) Role of Pharmacognosy in Yunani medicine.

Outcomes of the programme:

All the sessions were very informative, discussed areas are of great benefit for the participants.

- 1) The session helped in identifying the exact path for finding right herbs by providing information on standardization parameters which will help to select good quality herb.
- 2) Enhanced understanding about how to increase effectiveness of modern medicine by controlling drug related problems.
- 3) Increased understanding about use of Pharmacognosy in various fields of medicine.

Objective:-Viswanadha Institute of Pharmaceutical sciences had successfully organized one week Faculty development programme on “**Recent Advances in Chemical Sciences.**”

- 1) The main objective of the program is to provide information & knowledge on recent advances and scopes in diverse fields of chemistry.
- 2) To discuss the current status of new age technologies on different fields of chemistry.
- 3) To strengthen research expertise via exchange of ideas.
- 4) To encourage the faculty to stimulate critical thinking and to enrich scientific & technology knowledge of faculty.

Topics covered:

- a) Electrochemical biosensors for the detection of pathogens
- b) Crystal engineering of solid state pharmaceuticals
- c) Role of solid state analysis of drugs with its co-crystals in various therapeutic areas.
- d) The importance of adopting the latest technologies including Artificial Intelligence.
- e) Structure based drug designs.
- f) Molecular magnets used in quantum computing and nanomedicine.

Outcomes of the programme:

All the sessions were very informative, discussed areas are of great benefit for the participants.

- 1) Explored new possibilities on how to adopt latest technologies in field of chemistry.
- 2) Enhanced knowledge on recent advances and scopes in diverse fields of chemistry.
