Viswanadha Institute of Pharmaceutical Sciences organized a two week certificate program on "NOVEL DRUG DELIVERY SYSTEM (NDDS)" for III Pharm.D students by the resource person –Dr. B. Nagamani. She explained about various concept and approaches, advantages & disadvantages of targeted drug delivery and applications of polymers in formulation of CDDS. A total of 25 students participated in this program and gained knowledge about topic. They were able to understand the following objectives and learning outcomes.

OBJECTIVES:

- To minimize drug degradation and loss.
- To prevent harmful side effects.

 To increase drug bioavailability and the fraction of the drug accumulated in the required zone.

LEARNING OUTCOMES:

On completion of the program, it is expected that the students will be able to understand

- The need, concept, design & evaluation of various customized, sustained & controlled release dosage forms.
- To formulate & evaluate various novel drug delivery systems.

This course is useful to students to acquire knowledge on novel drug delivery systems. Received positive feedback from the students. Our management and Principal Dr. P. Uma Devi conveyed thanks to resource person and wishes to students. The program was conducted successfully.

ABOUT COLLEGE

Viswanadha Institute of Pharmaceutical Sciences (VNIPS) was established in 2008. VNIPS is affiliated to Jawaharlal Nehru Technological University, Kakinada and approved by All India Council for Technical Education& Pharmacy Council of India, New Delhi.

VNIPS has all state of art facilities required for running the courses in a best way. It has a team of well experienced, vibrant and dynamic faculty under the veteran leadership of Principal Dr. P. Uma Devi. Quality Education is the prime motto of VNIPS.

VISION: To transform as reputed institution imparting Pharmacy education and Research in bringing out adept Professionals.

Address for Communication:

MISSION:

- Impart value based and value added pharmacy education to meet global standards.
- Groom the students towards achieving academic excellence and encourage Research towards social orientations with emphasis on health care.
- Nurture the budding Pharmacists in catering to the needs of Industry and Society.
- Strengthen interaction of the institute with Industry and Hospitals.

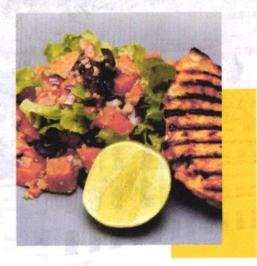

PROGRAM OBJECTIVE

- To know the basic knowledge on oils and proteins.
- To prevent harmful side effects.
- To increase drug bioavailability and to build up the space between protein mediators in production of newer and effective drugs.

- On completion of the program, it is expected that the students will be able to understand
- The need, concept, design & evaluation of various customized forms of oils and proteins.
- Evaluate the approximate values of proteins and their applications.

Viswanadha Institute of Pharmaceutical Sciences organized a two week certificate program on "OILS & PROTEINS" for II Pharm. D students by the resource person –Ms.Suvarna Kasi. She explained about various concepts of oils and proteins involved with analytical procedures of proteins and advantages & disadvantages of the procedures. A total of 20 students participated in this program and gained knowledge about topic. They were able to understand the following objectives and learning outcomes.

OBJECTIVES:

- To know the basic knowledge on oils and proteins.
- To prevent harmful side effects.
- To increase drug bioavailability and to build up the space between protein mediators in production of newer and effective drugs.

LEARNING OUTCOMES:

On completion of the program, it is expected that the students will be able to understand

- The need, concept, design & evaluation of various customized forms of oils and proteins.
- Evaluate the approximate values of proteins and their applications.

This course is useful to students to acquire knowledge on oils and proteins. Received positive feedback from the students. Our management and principal Dr. P. Uma Devi conveyed thanks to resource person and wishes to students. The program was conducted successfully.

Venue: VNIPS, Seminar Hall

VNIPS, Sontyam Organized a Certificate program on "COMPUTER AIDED DRUG DESIGN" for IV.II (VIII Semister) B.Pharm students by the resource person Mrs.P. Mounica. She explained about Basic Drug design, methods and types of drug design, screening. It enhances the biological response of drugs and create a greate career opportunites in Pharmaceutical industry. In this training program totally 18 students have participated. Students were able to understand the Concepts of the topic.

Objectives:

- 1. Ratoinal drug deign and testing.
- 2. Speed-up screening process.
- 3. Efficient screening (focused, target directed).

- 4. De novo design (target directed).
- 5. Integration of testing into design process.
- 6. Fail drug fast (remove hopeless ones asearly as possible).

Learning outcomes:

After learning this program, you will be able to understand

- To know computer aided design concept is not limited to computer programs.
- To know computer aided in design will add efficiency and speed to the Works.
- · Create a part from a drawing, with linked dimensions and equations to aid in modelling.
- Use modern software tools to accurately model parts for specific manufacturing operations.
- Analyze technical drawings using both CAD and basic manual tools
- An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability
- · A recognition of the need for, and an ability to engage in life-long learning

This course is useful to Students to acquire knowledge about CADD. Received positive feedback from the students. Our Management and Principal Dr. P. Umadevi conveyed thanks to resource person and wishes to Students. The program was conducted successfully.

CONCEPTS OF MODERN ANALYTICAL TECHNIQUES

ADD ON CERTIFICATE PROGRAM

DATES: 11th TO 26th .APRIL.2022

Program 01 Objectives

 Student will be able to understand the fundamental concepts of modern analytical techniques, which is important for qualitative as well as

quantitative analysis of drug

substances and drug product.

 To acquire theoretical and practical aspects of analytical techniques and instruments used in various fields of Pharmacy.

02

Program Outcomes

- To select the required instruments for specific analysis.
- To Understand Principles and Applications of Titrimetry, Spectroscopy and Chromatography

About Institution

Viswanadha Institute of Pharmaceutical Sciences (VNIPS) was established in 2008. It is being run by Viswanadha Educational Society (VES). VNIPS is affiliated to Jawaharlal Nehru Technological University, Kakinada and approved by All India Council for Technical Education& Pharmacy Council of India, New Delhi.

VNIPS has all state of art facilities required for running the courses in a best way. It has a team of well experienced, vibrant and dynamic faculty under the veteran leadership of Principal Dr. P. Uma Devi. Quality Education is the prime motto of

VNIPS.

VISION:

To transform as reputed institution imparting Pharmacy education and Research in bringing out adept Professionals.

Viswanadha Institute Of Pharmaceutical Sciences organised A Two Week Certificate program on "CONCEPTS OF MODERN ANALYTICAL TECHNIQUES" for I.I MPharm students by the Resource person: Dr PV Madhavi Latha. She explained about concepts of analytical techniques of variuos methods. A total of 20 students were participated in this program and gained knowledge about topic. They were able to uderstand the following Objectives and Learning outcomes.

Objectives:

- Student will be able to understand the fundamental concepts of modern analytical techniques, which is important for qualitative as well as quantitative analysis of drug substances and drug product.
- 2. To acquire theoretical and practical aspects of analytical techniques and instruments used in various fields of Pharmacy.

Learning Outcomes:

- 1. To select the required instruments for specific analysis.
- 2. To Understand Principles and Applications of Titrimetry, Spectroscopy and Chromatography

This course is useful to Students to acquire knowledge in the areas applications of Analytical techniques. Received positive feedback from the students. Our Management and Principal Dr. P.Umadevi conveyed thanks to resource person and wishes to Students. The program was conducted successfully.

ABOUT INSTITUTION

36 36 36 Resource Person

Viswanadha Institute of Sciences (VNIPS) Pharmaceutical was established in 2008. VNIPS is affiliated to Nehru Technological JNTU (Jawaharlal University) Kakinada and approved by AICTE (All India Council for Technical Education) & PCI (Pharmacy Council of India) New Delhi.

VNIPS has all state of art facilities required for running the courses in a best way. It has a team of well experienced, vibrant and dynamic faculty under the veteran leadership of Principal Dr. P. Uma Devi. Quality Education is the prime motto of VNIPS

VISION: To transform as reputed institution imparting Pharmacy education and Research in bringing out adept Professionals.

MISSION:

Impart value based and value added education to global pharmacy meet standards.

- Groom the students towards achieving academic excellence and encourage Research towards social orientations with
- emphasis on health care. Nurture the budding Pharmacists in catering to the needs of Industry and Society.

Dr B NAGAMANI

Assoc professor **Dept of Pharmaceutics**

Program **Objectives**

- Introduction to experimental designs and basic concepts.
- To demonstrate the formal experimental design like CRD and RCD and Latin square design.
- To confer awareness about factorial different factorial designs, experiments, Split-plot and Stripplot designs.

Outcomes of the programme:

- Upon completion of the program the student must be able to explain different types of formal experimental designs like completely randomized designs, randomized complete block designs and Latin square
- designs. Learn how to plan, design and conduct experiments effectively analyze and resulting data effectively.
- Able to solve research problems through statistically sound experimental strategy.

Venue: VINIPS Seminar Hall

Viswanadha Institute of Pharmaceutical Sciences organized A Two Week Certificate program on "EXPERIMENTAL DESIGNS IN APPLIED STATISTICS for IV.II (VIII semester) B.Pharm students by the Resource person – Dr B Nagamani. She explained about various aspects involved in Experimental Designs in detail. A total of 20 students participated in this program and gained knowledge about this topic. They were able to understand the following Objectives and Learning outcomes.

1. Introduction to experimental designs and basic concepts.

2. To demonstrate the formal experimental design like CRD and RCD and Latin square

design.

3. To confer awareness about factorial designs, different factorial experiments, Split-plot

and Strip-plot designs.

Learning Outcomes:

1. Upon completion of the program the student must be able to explain different types of

formal experimental designs like completely randomized designs, randomized complete

block designs and Latin square designs.

2. Learn how to plan, design and conduct experiments effectively and analyze the resulting

data effectively.

3. Able to solve research problems through statistically sound experimental strategy.

This Program is useful to students to acquire knowledge about Experimental Designs in Applied

Statistics in detail. We got a very positive response from students. Our Management and

Principal Dr. P.Umadevi conveyed thanks to Resource person and wishes to Students.
