PHARMACOLOGY - AN EFFECT OF DRUGS/ PHARMACEUTICALS ON LIVING SYSTEMS

ADD ON CERTIFICATE PROGRAM

DATES:
04th - 17th,
DEC-2020

About Institution

Viswanadha Institute of Pharmaceutical Sciences (VNIPS) was established in 2008. It is being run by Viswanadha Educational Society (VES). VNIPS is affiliated to Jawaharlal Nehru Technological University, Kakinada and approved by All India Council for Technical Education & Pharmacy Council of India, New Delhi.

VNIPS has all state of art facilities required for running the courses in a best way. It has a team of well experienced, vibrant and dynamic faculty under the veteran leadership of Principal Dr. P. Uma Devi. Quality Education is the prime motto of VNIPS.

VISION:

To transform as reputed institution imparting Pharmacy education and Research in bringing out adept Professionals.

MISSION:

Impart value based and value added pharmacy education to meet global standards.

Groom the students towards achieving academic excellence and encourage Research towards social orientations with emphasis on health care.

Nurture the budding Pharmacists in catering to the needs of Industry and Society. Strengthen interaction of the institute with Industry and Hospitals.

Program Objectives

01.

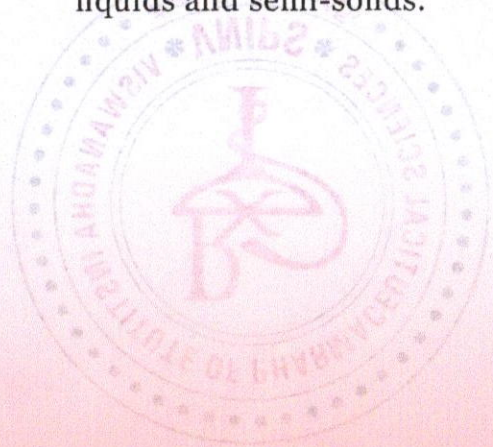

program is to make the students learn about different kinds of dosage forms and their preparation.

02.

Techniques of tablet coating and Micro-encapsulation.

Sterile products and principles of sterilization.

Complete picture of emulsions, suspensions, pharmaceutical liquids and semi-solids.

Program Outcomes

01.

Through this program the students acquired practical and theoretical skills for the preparation of different dosage forms.

02.

They can estimate the different factors that effect the speed and quality of the preparation of dosage forms.

They got knowledge to assess the quality of the prepared dosage forms.

PROGRAM REPORT

Name of the Program: A two week Certificate Program “**PHARMACOLOGY- AN EFFECT OF DRUGS/ PHARMACEUTICALS ON LIVING SYSTEMS**”

Date: 04/12/2020 to 17/12/2020

Resource Person: Dr. M. Savithri

Professor

Viswanadha Institute of Pharmaceutical sciences

Contact number: 9885560877

Mail ID: savi_mode@yahoo.co.in

Name of the Co-Ordinator: Mrs. B. Prathyusha

Assistant Professor

Viswanadha Institute of Pharmaceutical Sciences

Venue: Room No: 206, VNIPS

Number of Students Enrolled: 25

Viswanadha Institute of Pharmaceutical Sciences organized a two week certificate program on “**PHARMACOLOGY- AN EFFECT OF DRUGS/ PHARMACEUTICALS ON LIVING SYSTEMS**–Dr. M. Savithri. She explained about various concepts in pharmacology and toxicological studies involved with the absorption, distribution, metabolism and elimination kinetic mechanisms. A total of 25 students participated in this program and gained knowledge about topic. They were able to understand the following objectives and learning outcomes.

OBJECTIVES:

- To fully understand the principles of pharmacology as applicable to the practice of medicine
- To integrate your knowledge of other basic sciences with newly acquired information concerning the actions and clinical utility of drugs.
- Discriminate among a body of pharmacological agents and substances, based upon the generic drug name, pharmacological classification, primary mechanism of action, major clinical uses and/or most prevalent/clinically significant adverse effects.

LEARNING OUTCOMES:

On completion of the program, it is expected that the students will be able to

- Demonstrate the mathematical and interpretative skills needed to assess quantitative aspects of pharmacodynamic (drug-receptor interactions) and pharmacokinetic (absorption, distribution and elimination) manifestations of selected major or prototypical drugs
- Integrate previously acquired knowledge of anatomy, biochemistry, physiology, and pathophysiology with newly acquired information concerning the actions of drugs as well as their application in clinical medicine.
- Evaluate clinical problems and reason deductively to an appropriate pharmacological solution.
- Access, through electronic means, the available biomedical literature relevant to the pharmacological basis of medical practice

This course is useful to students to acquire knowledge on pharmacology that is the effect of drugs/ pharmaceuticals on living systems. Received positive feedback from the students. Our management and principal Dr. P. Uma Devi conveyed thanks to resource person and wishes to students. The program was conducted successfully.

Venue: Seminar hall, Viswanadha Institute of Pharmaceutical sciences.

Viswanadha institute of Pharmaceutical Sciences, Sontyam, organized A Two Week certificate program on Introduction to Computer Aided Drug Design for IV-I B. Pharm students by the resource person **Dr.K. Rama Devi**, involves, To screen, optimize and evaluate the activity of the compound against the target. A Total of ~~39~~ students participated in this training program and after the completion of the program they were able to understand the objectives of the program.

Objectives:

1. To predict the nature and strength of binding of molecule a given target.
2. To simulate the interactions between receptors and drugs in order to determine binding affinities.
3. To speed up screening process.
4. To integration of testing into design process.

Learning Outcomes:

Upon Completion of the Program, Students are able to learn:

1. Outline the entire process involved in the computer - aided drug design methodologies.
2. To describe about molecular mechanics and quantum mechanics.
3. Explain structure based - drug design including the molecular docking technique.
4. Describe about QSAR and Pharmacophore modelling in ligand - based drug design.

This Course was very useful to the students and their feedback is positive. The management and Dr. P. Umadevi, Principal of Viswanadha Institute of Pharmaceutical sciences, thanked the resource person and participants for making the programme successful.

About Us

Viswanadha Institute of Pharmaceutical Sciences (VNIPS) was established in 2008. It is being run by Viswanadha Educational Society (VES). VNIPS is affiliated to Jawaharlal Nehru Technological University, Kakinada and approved by All India Council for Technical Education & Pharmacy Council of India, New Delhi.

VNIPS has all state of art facilities required for running the courses in a best way. It has a team of well experienced, vibrant and dynamic faculty under the veteran leadership of Principal Dr. P. Uma Devi. Quality Education is the prime motto of VNIPS.

VISION:

To transform as reputed institution imparting Pharmacy education and Research in bringing out adept Professionals.

Objectives of Program

- To know the basic knowledge on sports physiology.
- To prevent harmful side - effects.
- To increase the awareness of proper exercises during sports.
- To get aware of the drugs which are to be taken and to be not taken during the athletics with respect to the players.

Outcomes of Program

- On completion of the program, it is expected that the students will be able to understand
- The need, concept, design & evaluation of sports physiology.
- Muscle physiology and its correlation to the sports.
- Respiration and its physiology during the exercises, how to be monitored while doing the exercises.
- Proper care to be taken with regarding the athletes with the drugs to be cautious during the athletics.

Venue: Room No: 207, VNIPS

Number of Students Enrolled: 20

Viswanadha Institute of Pharmaceutical Sciences organized a two week certificate program on “SPORTS PHYSIOLOGY” for I Pharm. D students by the resource person –Dr. M. Savithri. She explained about various concepts of sports physiology involved with physiology of muscles and their relative exercise induced effects during athletics . A total of 20 students participated in this program and gained knowledge about topic. They were able to understand the following objectives and learning outcomes.

OBJECTIVES:

- To know the basic knowledge on sports physiology.
- To prevent harmful side – effects.
- To increase the awareness of proper exercises during sports.
- To get aware of the drugs which are to be taken and to be not taken during the athletics with respect to the players.

LEARNING OUTCOMES:

On completion of the program, it is expected that the students will be able to understand

- The need, concept, design & evaluation of sports physiology.
- Muscle physiology and its correlation to the sports.
- Respiration and its physiology during the exercises, how to be monitored while doing the exercises.
- Proper care to be taken with regarding the athletes with the drugs to be cautious during the athletics.

This course is useful to students to acquire knowledge on oils and proteins. Received positive feedback from the students. Our management and principal Dr. P. Uma Devi conveyed thanks to resource person and wishes to students. The program was conducted successfully.

ABOUT COLLEGE

Viswanadha Institute of Pharmaceutical Sciences (VNIPS) was established in 2008. VNIPS is affiliated to Jawaharlal Nehru Technological University, Kakinada and approved by All India Council for Technical Education & Pharmacy Council of India, New Delhi.

VNIPS has all state of art facilities required for running the courses in a best way. It has a team of well experienced, vibrant and dynamic faculty under the veteran leadership of Principal Dr. P. Uma Devi. Quality Education is the prime motto of VNIPS.

VISION: To transform as reputed institution imparting Pharmacy education and Research in bringing out adept Professionals.

MISSION:

- Impart value based and value added pharmacy education to meet global standards.
- Groom the students towards achieving academic excellence and encourage Research towards social orientations with emphasis on health care.
- Nurture the budding Pharmacists in catering to the needs of Industry and Society.
- Strengthen interaction of the institute with Industry and Hospitals.

PROGRAM OBJECTIVE

- The main objective of this program is to make the students learn about different kinds of dosage forms and their preparation.
- Techniques of tablet coating and Micro-encapsulation.
- Sterile products and principles of sterilization.
- Complete picture of emulsions, suspensions, pharmaceutical liquids and semi-solids.

PROGRAM OUTCOMES

- Through this program the students acquired practical and theoretical skills for the preparation of different dosage forms.
- They can estimate the different factors that effect the speed and quality of the preparation of dosage forms.
- They got knowledge to assess the quality of the prepared dosage forms.
