PATIENT CENTRIC DRUG INFORMATION SERVICE FOR REDUCING MEDICATION ERRORS

ADD ON CERTIFICATE
PROGRAM

FROM 12/06/2018
TO 25/06/2018.

Dr. YELLAPRAGADA SUBBARAO BHAVAN

Resource Person

Dr.M SAVITHRI

Professor

Dept of Pharmacology

Program Outcomes

- Types of errors and their particular significance in finding root cause & correction or avoidance of the errors.
- Functioning & reporting of errors
- Chemical significance, safety promotions, enhancement of health care team outcomes.

Program Objectives

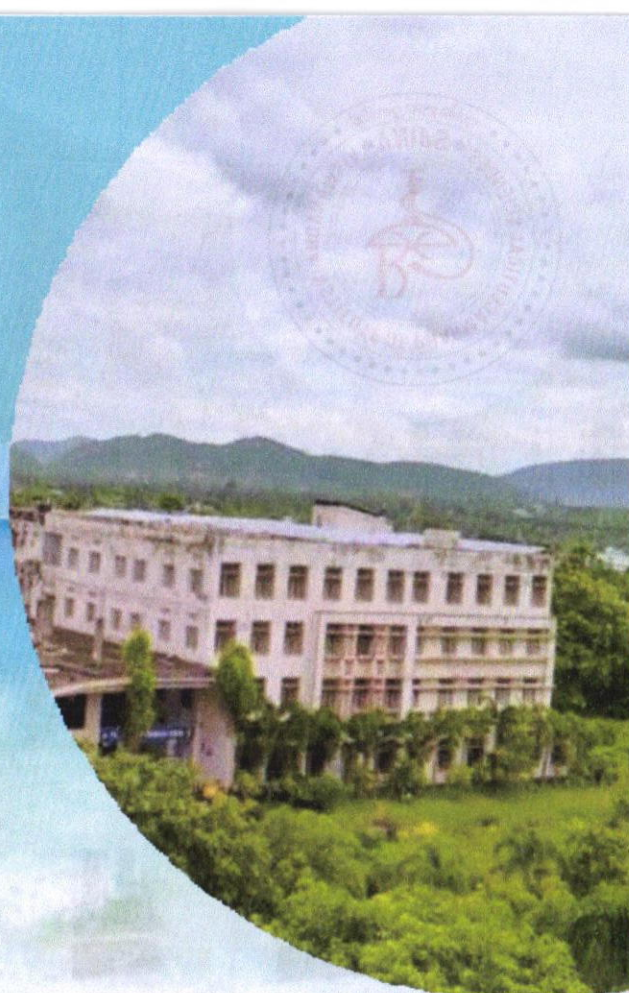

- Describe the major types of errors and how these negatively impact the patient care.
- Outline the most important joint commission patient safety goals including challenges in error accountability and the barriers to error reporting.
- Identify the difference between active and latent errors, as well the difference between adverse, negative adverse, sentinel, and never events

Number of Students Enrolled: 30

Viswanadha Institute of Pharmaceutical Sciences organized a two week certificate program on “**PATIENT CENTRIC DRUG INFORMATION SERVICE FOR REDUCING MEDICATION ERRORS**” for IV.I (VII Semester) B. Pharm Students by the resource person – Dr. M. Savithri. She explained about various aspects and significant guidance on medical errors referred to health care team and patients’ safety goals. A total of 30 students participated in this program and gained knowledge about topic. They were able to understand the following objectives and learning outcomes.

OBJECTIVES:

- Describe the major types of errors and how these negatively impact the patient care.
- Outline the most important joint commission patient safety goals including challenges in error accountability and the barriers to error reporting.
- Identify the difference between active and latent errors, as well the difference between adverse, negative adverse, sentinel, and never events

LEARNING OUTCOMES:

- Types of errors and their particular significance in finding root cause & correction or avoidance of the errors.
- Functioning & reporting of errors
- Chemical significance, safety promotions, enhancement of health care team outcomes.

This course is useful to students to acquire knowledge on medication errors. Received positive feedback from the students. Our management and Principal Dr. P. Uma Devi conveyed thanks to resource person and wishes to students. The program was conducted successfully.

ABOUT INSTITUTION

Viswanadha Institute of Pharmaceutical Sciences (VNIPS) was established in 2008. VNIPS is affiliated to Jawaharlal Nehru Technological University, Kakinada and approved by All India Council for Technical Education & Pharmacy Council of India, New Delhi.

VNIPS has all state of art facilities required for running the courses in a best way. It has a team of well experienced, vibrant and dynamic faculty under the veteran leadership of Principal Dr. P. Uma Devi. Quality Education is the prime motto of VNIPS.

VISION: To transform as reputed institution imparting Pharmacy education and Research in bringing out adept Professionals.

MISSION:

Impart value based and value added pharmacy education to meet global standards.

- Grow the students towards achieving academic excellence and encourage Research towards social Orientations with emphasis on health care.

Nurture the budding Pharmacists in catering to the needs of Industry and Society.

- Strengthen interaction of the institute with Industry and Hospitals.

ABOUT PROGRAM

Title:

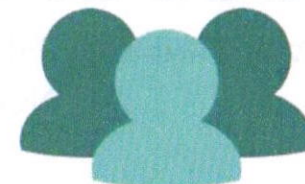

MICROBIAL QUALITY CONTROL & TESTING

OBJECTIVE

- To acquire knowledge on reviewing the microbiological environmental monitoring
- To understand the media fill medium growth promotion testing.
- To Understand the concept of sterility testing.
- To Understand the other microbiological laboratory issues.

OUTCOMES

- To describe diversity of microorganisms.
- To gain knowledge on bacterial cell structure and function.
- To understand the concepts of microbial growth and mechanism.
- To understand the ways to control their growth and by physical and chemical means.

PROGRAM REPORT

Name of the Event: A Two Week Certificate Program on “**MICROBIAL QUALITY CONTROL & TESTING**”

Date: 06-08-2018 to 21/08/2018

Resource Person: Mrs.I. Vasavi

Assistant Professor

Department of Pharmaceutics,

Contact No: 8142092739

Email ID: vasavithanvi@gmail.com

Name of the Co-ordinator: Dr. P.V. Madhavi Latha,

Associate Professor,

Dept of Pharmaceutical Analysis.

Venue:Seminar hall, Viswanadha Institute of Pharmaceutical sciences.

Viswanadha institute of Pharmaceutical Sciences, Sontyam, organized A Two Week certificate program for Pharmacy students on “ **Microbial quality control and testing** ” for II-I B. Pharm students by the resource person **Mrs. I. Vasavi**, involves Knowledge about microbiological parameters, specific microbial tests and its validation. A Total of 40 students participated in this training program and after the

Objectives:

1. To acquire knowledge on reviewing the microbiological environmental monitoring
2. To understand the media fill medium growth promotion testing.
3. To Understand the concept of sterility testing.
4. To Understand the other microbiological laboratory issues.

Learning Outcomes:

1. To describe diversity of microorganisms.
2. To gain knowledge on bacterial cell structure and function.
3. To understand the concepts of microbial growth and mechanism.
4. To understand the ways to control their growth and by physical and chemical means.

This Course was very useful to the students and their feedback is positive. The management and Dr. P. Umadevi, Principal of Viswanadha Institute of Pharmaceutical sciences, thanked the resource person and participants for making the programme successful.

ABOUT COLLEGE

Viswanadha Institute of Pharmaceutical Sciences (VNIPS) was established in 2008

VNIPS is affiliated to Jawaharlal Nehru Technological University, Kakinada and approved by All India Council for Technical Education & Pharmacy Council Of India, New Delhi.

VNIPS has all state of art facilities required for running the courses in a best way. It has a team of well experienced, vibrant and dynamic faculty under the veteran leadership Of Principal Dr. P. Uma Devi. Quality Education is the prime motto of VNIPS.

VISION: To transform as reputed institution imparting Pharmacy education and Research in bringing out adept Professionals.

MISSION:

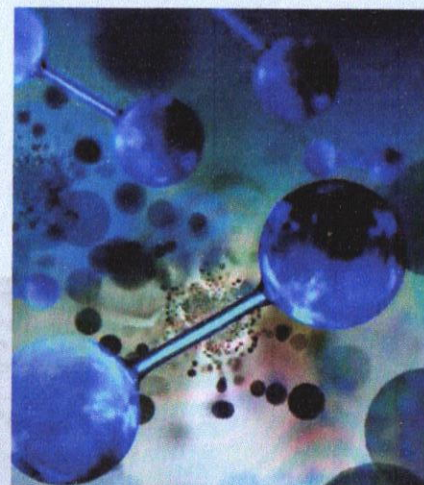

- Impart value based and value added pharmacy education to meet global standards.
- Groom the students towards achieving academic excellence and encourage Research towards social Orientations with emphasis On health care.
- Nurture the budding Pharmacists in catering to the needs Of Industry and Society.
- Strengthen interaction of the institute with Industry and Hospitals.

PROGRAM OBJECTIVE

- To impart knowledge of basic chemistry of water soluble polymers and their applications in the field of Pharmacy..
- To provide a through view of significant water soluble polymers with a focus on industrial pharmacy.
- To explain various techniques in the production, handling and fabrication of water soluble polymers.

PROGRAM OUTCOMES

- Exhibit a comprehensive knowledge of the various types of commercially important water soluble polymers.
- To impart knowledge about synthetic methods in the field of water soluble polymers.
- Demonstrate a systematic understanding and critical awareness of the solution and interfacial behavior of water soluble polymers at the forefront of current knowledge

Venue: VNIPS, Seminar Hall

VNIPS, Sontyam Organized a Certificate program on Water soluble polymers for III.I B.Pharm students by the resource Ms.T.Amrutha Rai which involves on going Classifications , properties,

Pharmaceutical industry. In this training program. A total of 24 students have participated. Students were able to understand the Concepts of the topic.

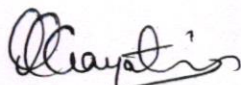

Objectives:

1. To impart knowledge of basic chemistry of water soluble polymers and their applications in the field of Pharmacy..
2. To provide a through view of significant water soluble polymers with a focus on industrial pharmacy.
3. To explain various techniques in the production, handling and fabrication of water soluble polymers.

Learning outcomes:

- Exhibit a comprehensive knowledge of the various types of commercially important water soluble polymers.
- To impart knowledge about synthetic methods in the field of water soluble polymers.
- Demonstrate a systematic understanding and critical awareness of the solution and interfacial behavior of water soluble polymers at the forefront of current knowledge

This course is useful to Students to acquire knowledge about polymers. Received positive feedback from the students. Our Management and Principal Dr. P.Umadevi conveyed thanks to resource person and wishes to Students. The program was conducted successfully.

- Nurture the budding Pharmacists in catering to the needs of Industry and Society.
- Strengthen interaction of the institute with Industry and Hospitals.

About Program

OBJECTIVES

- To explain the basic concepts of Pharmacokinetics in detail.
- A brief lecture on Compartmental and Non-compartmental models.
- To describe One and Two Compartment Models for both IV Bolus and IV Infusion.
- To give awareness on Multiple Dose Regimen, Loading Dose and Non-linear Pharmacokinetics.

OUTCOMES

- Upon completion of the program the students should be able to explain the effect of Pharmacokinetic parameters on the biological effect of the drug.
- They must understand the complete concept of Compartmental Modelling.
- Also they should be able to select the correct Pharmacokinetic model based on plasma level or urinary excretion data that best describes the ADME

PROGRAM OBJECTIVE

- To Acquire and apply basic pharmacy knowledge in various fields of Pharmacy.
- Provide patient-centered care as a responsible Pharmacist.
- A career in pharmacy, unfolds full of opportunities leading to a golden future for a young career aspirant.
- Define the term “antimicrobials”
- Define the term “antibiotic Resistance”
- Define the term “antibiotic stewardship”
- Define the term “diagnostic stewardship”
- Describe mechanisms of the development of antibiotic resistance.
- Define factors that contribute to antibiotic resistance.
- Describe action steps that one can take to prevent antibiotic resistance and the spread of antibiotic-resistant organisms.

LEARNING OUTCOMES

- Knowledge about antibiotic prescribing and resistance.
- Knowledge, ability, and interest to use own antibiotic prescribing behavior.
- Understanding of the importance of antibiotics.
- Antibiotics are medicines used to prevent and treat bacterial infections. Antibiotic resistance occurs when bacteria change in response to the use of these medicines.
- To classify common clinically important bacteria, describe what organisms are usually found where and select appropriate antibiotics.

PROGRAM REPORT

Name of The Program: A Two Week Certificate Program on “EFFECTIVENESS OF ANTIBIOTICS”

Date: 12/12/2018 to 27/12/2018

Resource person: Ms.M Gayathri Devi
Asst. Professor
Department of Pharmaceutics
Viswanadha Institute of pharmaceutical sciences
Contact number: 9160352

Email.ID: gayatriminnu@gmail.com

Name of the Co-ordinator: Mrs. I. Vasavi
Asst.Professor
Department of Pharmaceutics

Number of Students attended: 22

Venue: VNIPS, Seminar Hall

VNIPS, Sontyam Organized a Certificate program on “Effectiveness of Antibiotics” for IV.II(VIII Semester) B.Pharm students by the resource person Ms M.Gayatri Devi. She explained about Different route of administration for Antibiotics and uses and side effects, Resistance of antibiotics and career guidance in pharmacy field. In this training program totally 22 students have participated. Students were able to understand the following Objectives and Learning outcomes.

Objectives:

- Define the term “antimicrobials”
- Define the term “antibiotic Resistance”

- Define the term “diagnostic stewardship”
- Describe mechanisms of the development of antibiotic resistance.
- Define factors that contribute to antibiotic resistance.
- Describe action steps that one can take to prevent antibiotic resistance and the spread of antibiotic-resistant organisms.

Learning outcomes:

- Knowledge about antibiotic prescribing and resistance.
- Knowledge, ability, and interest to use own antibiotic prescribing behavior.
- Understanding of the importance of antibiotics.
- Antibiotics are medicines used to prevent and treat bacterial infections. Antibiotic resistance occurs when bacteria change in response to the use of these medicines.
- To classify common clinically important bacteria, describe what organisms are usually found where and select appropriate antibiotics.

This course is useful to Students to acquire knowledge about “**Effectiveness of Antibiotics**” Received positive feedback from the students. Our Management and Principal Dr. P.Umadevi conveyed thanks to resource person and wishes to Students. The program was conducted successfully.

ABOUT INSTITUTION

Viswanadha Institute of Pharmaceutical Sciences (VNIPS) was established in 2008.

VNIPS is affiliated to Jawaharlal Nehru Technological University, Kakinada and approved by All India Council for Technical Education & Pharmacy Council of India, New Delhi.

VNIPS has all state of art facilities required for running the courses in a best way. It has a team of well experienced, vibrant and dynamic faculty under the veteran leadership of Principal Dr. P. Uma Devi. Quality Education is the prime motto of VNIPS.

VISION: To transform as reputed institution imparting Pharmacy education and Research in bringing out adept Professionals.

MISSION:

- Impart value based and value added pharmacy education to meet global standards.
- Groom the students towards achieving academic excellence and encourage Research towards social orientations with emphasis on health care.
- Nurture the budding Pharmacists in catering to the needs of Industry and Society.
- Strengthen interaction of the institute with Industry and Hospitals.

OBJECTIVES

- To gain knowledge on basic stereochemical concepts
- To understand the Chemistry behind the drug activity based on the stereochemistry concepts.
- To acquire knowledge on Structural activity relationship based on the stereochemical aspects
- To understand relationship between Organic and medicinal chemistry.

OBJECTIVES

- To distinguish between different kinds of isomers
- To assign cis/trans or E&Z configuration to any unsaturated compounds.
- To distinguish the compounds between mirror images that are superimposable and non superimposable.
- To apply priority rules to assign R & S configuration to different molecules.
- To understand the relationship between the physical properties and chemical properties of pairs of enantiomers or diastereomers.
- To understand the relationship between specific rotation and biological properties of a pair of enantiomers and diastereomers.

PROGRAM REPORT

Name of the Event: A Two Week Certificate Program on “**CONCEPTS OF STEREOCHEMISTRY**”.

Date: 11-02-2019 to 23-02-2019

Resource Person: Mrs. K. Pushpa Ramalakshmi,

Assistant Professor,

Department of Pharmaceutical Chemistry,

Contact No: 9490579998

Email ID: luckypharmacy24@gmail.com

Name of the Co-ordinator: Mrs. A. Sowjanya,

Assistant Professor

Dept of Pharmaceutics.

Venue: Seminar hall, Viswanadha Institute of Pharmaceutical sciences.

Viswanadha institute of Pharmaceutical Sciences, Sontyam, organized A Two Week certificate program on Concepts of Stereochemistry for II-II B. Pharm students by the resource person **Mrs. K. Pushpa Ramalakshmi**, involves Introduction to stereochemistry, awareness on different stereochemistry concepts related to drugs and its activity. A Total of 39 students participated in this training program and after the completion of the program they were able to understand the objectives of the program.

Objectives:

1. To gain knowledge on basic stereochemical concepts
2. To understand the Chemistry behind the drug activity based on the stereochemistry concepts.
3. To acquire knowledge on Structural activity relationship based on the stereochemical aspects
4. To understand relationship between organic and medicinal chemistry.

Learning Outcomes:

1. To distinguish between different kinds of isomers
2. To assign cis/trans or E&Z configuration to any unsaturated compounds.
3. To distinguish the compounds between mirror images that are superimposable and non superimposable.
4. To apply priority rules to assign R & S configuration to different molecules.
5. To understand the relationship between the physical properties and chemical properties of pairs of enantiomers or diastereomers.
6. To understand the relationship between specific rotation and biological properties of a pairs of enantiomers and diastereomers.

This Course was very useful to the students and their feedback is positive. The management and Dr. P. Umadevi, Principal of Viswanadha Institute of Pharmaceutical sciences, thanked the resource person and participants for making the programme successful.

ABOUT PROGRAM

Title:

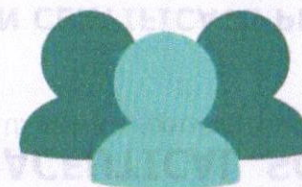

PHARMACEUTICAL RADIOISOTOPES

OBJECTIVE

- To impart knowledge on Stability, Units, Half-Life of Radioactivity.
- To Explain various methods of production of radioisotopes, measurements and handling of radio activity.
- To provide a detailed out come on applications of pharmaceutical radioisotopes in therapy, diagnosis, research's and sterilization.

OUTCOMES

- To account for fundamental concepts of radiation protection
- To account for interaction between radiation and matter
- To use a variety of radioactivity detectors
- To work with the production of radioactive nuclides
- To Synthesis target molecules labeled with radio nuclides
- To account for the use of labeled

PROGRAM REPORT

Name of The Program: A Two Week Certificate Program on “**PHARMACEUTICAL RADIOISOTOPES**”

Date: 29/04/2019 to 13/05/2019

Resource person: Mrs. K. Suvarna
Asst. Professor
Department of Pharmaceutical Analysis
VNIPS
Contact number: 7416760496
Email.ID: suvarnakasi@gmail.com

Name of the Co-ordinator: Mrs. P. Sivalalitha
Asst.Professor
Department of Pharmaceutical analysis

Number of students attended: 21

Venue: VNIPS, Seminar Hall

VNIPS, Sontyam Organized a Certificate program on “**pharmaceutical Radioisotopes**” for I.II(IISemester) B.Pharm students by the resource person Mrs. K.Suvarna which involves on Radiation Detection and measurements, properties of radiation and Radio isotopes in chemistry. It enhances the biological response of drugs and career guidance in pharmacy field. In this training program totally 21 students have participated. Students were able to understand the following Objectives and Learning outcomes.

Objectives:

- To impart knowledge on Stability, Units, Half-Life of Radioactivity.
- To Explain various methods of production of radioisotopes, measurements and handling of radio activity.
- To provide a detailed out come on applications of pharmaceutical radioisotopes in therapy, diagnosis, reasearch and sterilization.

Learning outcome:

- To account for fundamental concepts of radiation protection
- To account for interaction between radiation and matter
- To use a variety of radioactivity detectors
- To work with the production of radioactive nuclides
- To Synthesis target molecules labeled with radio nuclides
- To account for the use of labeled

This course is useful to Students to acquire knowledge about Pharmaceutical Radioisotopes. Received positive feedback from the students. Our Management and Principal Dr. P.Umadevi conveyed thanks to resource person and wishes to Students. The program was conducted successfully.
