2.3.1. Student centric methods, such as experiential learning, participative learning and problem-solving methodologies are used for enhancing learning experiences using ICT tool:

Response:

Before commencement of the academic sessions several meetings are organized on motivating, learning & evaluation.

Academic calendars along with class time tables are made available before commencement of the academic session.

Industrial expert lectures, electives, certification programs are planned and executed.

Experiential learning: Our institution encourages overall development of the students through experiential learning, where the students learn by doing and by reflecting the same.

This experiential learning happens in laboratories and practice school and projects

Apart this is also achieved by organizing various

- Internships and Hospital Visits
- Academic Research
- Medical Camps, Health Checkups and Awareness Camps
- Workshops/Training Programs
- ICT tools & Soft Ware
- Industrial Visits, Medicinal Plants Gardening Visits, Field Visits, Biodiversity Parks Visits

Participative learning: - This is achieved by participation of students in various competitions organized in the institution.

- Seminars/Assignments
- Student Teacher Interactions
- Participate in NSS Activities
- Academic Activities
- Poster Presentations /Oral Presentations

- Conferences
- Pamphlet Preparations
- Model making
- Essay Writing

Problem-solving methodologies:-

The overall syllabus is designed with outcome based objectives. Each and every student develops analytical skills and they will be able to apply theory knowledge on practical situations.

The problem solving skills of the student improved by participating in various activities.

- Mini projects
- Practice school
- Case studies (Pharm.D)
- Assignments
- Quiz and debate
- Elocution

ICT enabled learning:-

In addition to traditional teaching approaches, faculty members are employing ICT-enabled teaching methodologies in the classroom. When the topic requires it students are taught through power point presentations and audio-visual clips using LCD projector in the seminar hall.

The drug information softwares IBM micromedex is used to give complete drug information to Pharm. D and B.Pharm students .

The instrument room is equipped with a variety of high- tech instruments, including HPLC, UV-visble spectrophotometer run on double beam spectrophotometer while HPLC run on Autochrome 3000 software

Scientific & Research articles are found on the research gate and google scholar websites.

VISAKHA VACCINE DEPOT

Ref: VVD/2/23

Date: 27.2.23

Subject: Confirmation of Internship Completion

It is officially confirmed that A. Amulya has successfully undergone an internship at VISAKHA VACCINE DEPOT from 2.2.23 to 11.2.23. Throughout his/her tenure, he/she has exhibited commendable dedication, professionalism, and competence in his/her role.

Amulya consistently maintained a high level of accuracy and efficiency in handling various tasks, thereby contributing significantly to the smooth operation of the pharmacy outlet. His/Her positive attitude, strong work ethic, and excellent interpersonal skills were noteworthy, creating a positive and collaborative work environment.

He/She demonstrated effective communication and collaboration with colleagues, customers, and management, showcasing [his/her] ability to work well within a team and interact positively with others.

We would like to express our sincere appreciation for A. Amulya's valuable contributions during his/her internship with us. He/She has shown a commitment to learning and adapting to the challenges of the pharmaceutical industry. We believe that he/she has gained valuable experience and skills during this period.

We wish A. Amulya continued success in his/her future endeavors.

Sincerely,

K. Lavanya consistently maintained a high level of accuracy and efficiency in handling various tasks, thereby contributing significantly to the smooth operation of the pharmacy outlet. His/Her positive attitude, strong work ethic, and excellent interpersonal skills were noteworthy, creating a positive and collaborative work environment.

He/She demonstrated effective communication and collaboration with colleagues, customers, and management, showcasing [his/her] ability to work well within a team and interact positively with others.

We would like to express our sincere appreciation for K. Lavanya's valuable contributions during his/her internship with us. He/She has shown a commitment to learning and adapting to the challenges of the pharmaceutical industry. We believe that he/she has gained valuable experience and skills during this period.

We wish K. Lavanya continued success in his/her future endeavors.

Sincerely,
