Program Report

Name: A one day seminar on “Trademarks and Geographical Indications”

Time: 2.00 PM

Date: 08.11.2021

Venue: VNIPS Seminar hall

Details of Resource Person: P.N.Mallikarjun, Assoc. Professor, Dept of Pharmaceutics, Vignan Institute of Pharmaceutical Technology.

Details of Program Co-ordinator: B. Ramadevi, Assoc. Professor, Dept of Pharmacognosy and Phytochemistry, VNIPS

Objectives of the Program: To make understand the basics, types, purpose, laws and acts, differences and uses of trademarks and Geographical Indications.

Topics covered:

- The governing bodies for trademarks in India - The Trademark Act 1999.
- Purpose, basics and types of Trademarks
- Examples, uses and tags of Geographical Indications.
- Geographical Indications goods 1999.

Outcomes: About Geographical indications (GIs), Trademark, its arbitrary sign, Examples, uses and tags of Geographical Indications and Trademarks.

No. of participants: 8 Faculty along with 19 students.

CIRCULAR

It is hereby informed to all faculty members and IV B.Pharmacy students that the Research and Development (R&D) cell of Viswanadha Institute of Pharmaceutical Sciences is going to conduct the one day webinar on “**Application of R-Programming in the field of Pharmaceutical Research**” by **Dr. G. Charan Kumar**, Assistant Professor, Department of Mathematics, Koneru Lakshmaiah Education Foundation, Vaddeswaram on 20.11.2021, Saturday at 6:30 pm through online based Zoom meeting. Hence, all faculty and third year B. Pharmacy students are instructed to take advantage of this chance as it was an emerging program in the field of statistics and make the event successful.

Program coordinator: Dr. B. Nagamani,
Associate Professor,
Department of Pharmaceutics,
Viswanadha Institute of Pharmaceutical Sciences.

About Institution:

Viswanadha Institute of Pharmaceutical Sciences (VNIPS) was established in 2008. It is being run by Viswanadha Educational Society.

VNIPS is affiliated to Jawaharlal Nehru Technological University - Kakinada and approved by All India Council for Technical Education & Pharmacy Council of India, New Delhi.

VNIPS has all state of art facilities required for running the courses in a best way. It has a team of well experienced, vibrant and dynamic faculty under the veteran leadership of Principal Dr. P. Uma Devi. Quality Education is the prime motto of VNIPS.

VISION: To transform as reputed institution imparting Pharmacy education and research in bringing out adept Professionals.

COURSES OFFERED:

B.PHARMACY, PHARM.D,
M.PHARMACY:
PHARMACEUTICS
& PHARMACEUTICAL ANALYSIS.

About the Program

Program Co-Ordinator

Dr. B. NAGAMANI

Associate Professor,
Department of Pharmaceutics

OBJECTIVE:

The webinar's primary objective is to guide students to apply programming language and software environment for statistical computing and graphics in the field of Pharmaceutical research.

TOPICS:

R-Programming is one of the most extensive modelling resources in scientific research with fine publishing quality graphics. It incorporates all of the standard statistical tests, models and analyses, as well as providing a comprehensive language for managing collected data during research.

The topics covered include:

1. Statistical computing
2. Machine learning
3. Data science

ABOUT PROGRAM

Topics:

- Business fundamentals: This includes topics such as business planning, marketing, finance, accounting, and operations management.
- Entrepreneurial skills: This includes topics such as leadership, problem-solving, risk-taking, and creativity.
- Industry knowledge: This includes topics specific to the industry in which the entrepreneur plans to operate.
- Women in leadership: This includes topics such as the unique challenges and opportunities faced by women in leadership positions.

Objective:

- Providing women with access to finance, training, and mentorship.
- Creating a supportive business environment for women entrepreneurs.
- Promoting women entrepreneurship as a desirable career path.

Program Report

Name: A one day Seminar on “Women Entrepreneurship”.

Time: 3:00 pm

Date: 23.12.2021

Venue: Viswanadha Institute of Pharmaceutical Sciences seminar hall

Details of resource person: Mrs. G. Hymavathi Devi, M.com, M.C.A, Regional Head, Skill Development Organization, Synchrono Serve Global Solution.

Details of program coordinator: Mrs. M. Gayathri Devi, Assistant Professor, Department of Pharmaceutics, Viswanadha Institute of Pharmaceutical Sciences.

Objectives of the program:

The seminar's major goal is to teach students about how to empower women to start and grow their own businesses. This can be achieved through a variety of means, including:

1. Providing women with access to finance, training, and mentorship
2. Creating a supportive business environment for women entrepreneurs
3. Promoting women entrepreneurship as a desirable career path

Topics covered:

1. Business fundamentals: This includes topics such as business planning, marketing, finance, accounting, and operations management.
2. Entrepreneurial skills: This includes topics such as leadership, problem-solving, risk-taking, and creativity.
3. Industry knowledge: This includes topics specific to the industry in which the entrepreneur plans to operate.
4. Women in leadership: This includes topics such as the unique challenges and opportunities faced by women in leadership positions.

5. Women in STEM: This includes topics such as the challenges and opportunities of women working in science, technology, engineering, and mathematics fields.
6. Women in social entrepreneurship: This includes topics such as the unique role of women in social entrepreneurship and the challenges and opportunities faced by women social entrepreneurs.
7. How to start a business: This includes topics such as choosing a business structure, writing a business plan, and obtaining financing.
8. How to grow a business: This includes topics such as marketing, sales, and customer service.
9. How to manage a business: This includes topics such as financial management, employee management, and risk management.
10. The importance of women entrepreneurship
11. The challenges and opportunities faced by women entrepreneurs
12. Best practices for women entrepreneurs
13. Government and other stakeholder support for women entrepreneurs
14. Case studies of successful women entrepreneurs

Outcome:

Students got the awareness about how to empower women to start and grow their business. Students have become aware of variety of means for women startups that includes women access to finance, training and mentorship.

ABOUT PROGRAM

Topics:

Drug repurposing or drug repositioning is a promising approach and is mainly applied for the treatment of rare genetic diseases, and it offers significant benefits to the pharmaceutical research and industry.

- Why drug repurposing? Industry point of view.
- Drug discovery process.
- Drug discovery and drug repurposing.
- Pharmaceutical development.
- Applications of drug repurposing

Objective:

The primary intention of this presentation is to improve understanding of students towards the application of an existing therapeutic drug that is already in the market to a new disease.

Objectives of the program:

The seminar's major goal is to teach students about how to drive economic growth, create jobs, and foster a culture of entrepreneurship. Research and innovation play a crucial role in supporting and advancing entrepreneurship in various ways.

Topics covered:

Entrepreneurial Ecosystems: Research on the elements that constitute a thriving entrepreneurial ecosystem, including access to capital, mentorship, networking, and support organizations.

Sustainable and Social Entrepreneurship: Research into business practices that focus on environmental sustainability and social impact, such as clean energy, sustainable agriculture, and social enterprises.

Business Incubation and Acceleration: The role of business incubators and accelerators in supporting and nurturing early-stage entrepreneurs.

Entrepreneurial Education: The impact of entrepreneurial education and training programs in fostering an entrepreneurial mindset and skill set.

Corporate Entrepreneurship: Research on how established companies can foster innovation and entrepreneurship within their organizations.

Global Entrepreneurship: The opportunities and challenges of international entrepreneurship and global markets.

Intellectual Property and Innovation Protection: Strategies for protecting intellectual property and innovations through patents, trademarks, and copyrights.

Access to Networks and Resources: The importance of building professional networks and accessing resources, including mentorship and advisory services.

Outcome:

Students were able to understand the role of business incubators and accelerators in supporting and nurturing early stage entrepreneurs. The students were aware of entrepreneurial education and training program in fostering an entrepreneurial mindset and skills.

About the Program

OBJECTIVE:

The major purpose is to teach students how to collect, organize, interpret and report scientific data by using statistical methods based on natural phenomena.

TOPICS COVERED

Pharmaceutical statistics is the application of statistics to matters concerning the Pharmaceutical industry.

- Origin of statistics.
- Development of statistics in pharmaceutical research.
- Sources of medical uncertainties.
- Role of biostatistics in patient care.
- Role of biostatistics in health planning and evaluation.
- Role of biostatistics in medical research.
- Types of data.

Program Report

Name: One day webinar on “**Applications of Biostatistics in Pharmaceutical Research**”.

Time: 06:30 PM

Date: 16.04.2022

Venue: Online based Zoom meeting.

Details of resource person: Dr. GSN Koteswara Rao, Professor and Head, Department of Pharmacy, School of Medical and Allied Sciences, Galgotias University, Greater Noida, U.P.

Details of program coordinator: Dr. B. Pratyusha, Assistant Professor, Department of Pharmacy Practice, Viswanadha Institute of Pharmaceutical Sciences.

Objectives of the program:

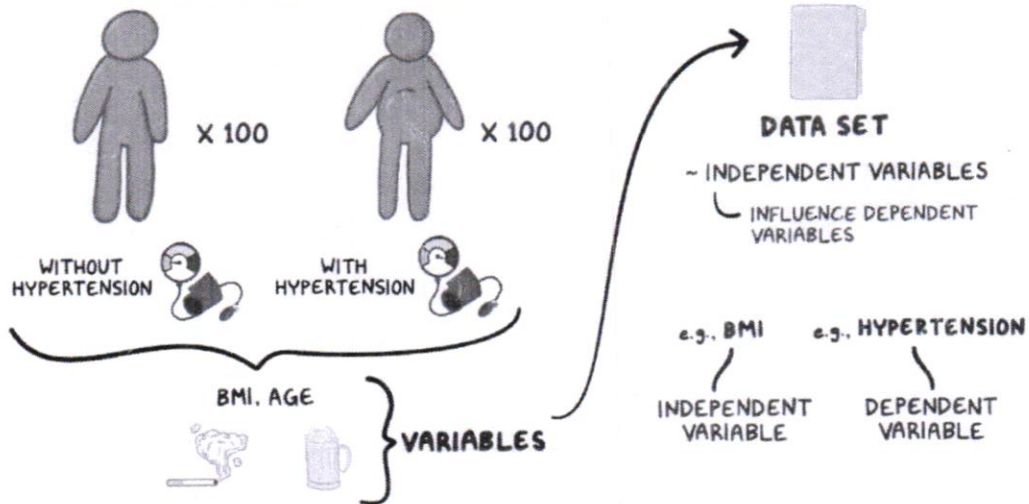

The major purpose is to teach students how to collect, organize, interpret and report scientific data by using statistical methods based on natural phenomena.

Topics covered:

Pharmaceutical statistics is the application of statistics to matters concerning the Pharmaceutical industry.

- Origin of statistics.
- Development of statistics in pharmaceutical research.
- Sources of medical uncertainties.
- Role of biostatistics in patient care.
- Role of biostatistics in health planning and evaluation.
- Role of biostatistics in medical research.
- Types of data.
- Scales of measurement.
- Tabulation and graphical representation of data.

- FIGURE OUT IF PEOPLE with HIGH BMI are at a HIGHER RISK of HYPERTENSION

Outcome:

Students are familiar with the science which deals with collection, classification and tabulation of numerical facts in pharmaceutical research as the basis for explanation, description and comparison of phenomenon.

No. of participants: 3 Faculty along with 42 students.
