**6.1.1 The Governance and Leadership is visible at various Institutional practices, it comprises of decentralization and participation in the Institutional Governance in accordance with Vision and Mission of the Institution.**

The efficacy of administration and management within institutional practices becomes manifest through the principles of decentralization and active stakeholder engagement in the execution of the institution's mission and vision.

Viswanadha institute of pharmaceutical sciences has a distinct vision and mission that abode the needs of all its stake holders. The college management intends to cultivate quality education by instilling human values, ethics and compassion. Additionally they aim to provide transformative education to create leaders and innovators who can generate new knowledge for both society and industry.

## **INSTITUTE VISION AND MISSION**

### **VISION:-**

To transform as reputed institution imparting Pharmacy Education and Research in bringing out adept professionals.

### **MISSION:-**

Impart Value-based and Value added Pharmacy education to meet global standards. Groom the students towards achieving academic excellence and encourage research towards social orientation with emphasis on health care. Nurture the budding Pharmacists in catering to the needs of Industry and Society. Strengthen interaction of the Institute with Industry and Hospitals.

**Participative Management:** Encouraging all the staff and students to participate in decision-making process. The management of the institute believes in participatory decision-making process.

**Management** is committed to impart Quality Education by providing all the required physical resources, financial resources, human resources apart from a congenial campus environment. Procuring equipment, furniture and other amenities were up graded by the management.

**Participation of Faculty in decision-making:** In organizational order, faculty are at the bottom and remain key members/pillars of the academic process. At this level the preparation and implementation of plans and policies are done. Principal handles the day-to-day needs and problems. Any further requirements i.e., needing a higher level of input and directions are dealt with the management.

### **Decentralization**

A trend of decentralized governance system was maintained in an institution. At various levels in the institution, decentralization and participative management were contributed. Chairman plays an important role in the administration of the college and strives hard for the smooth running. Principal and Vice Principal conduct meetings with respective faculty members and take proper suggestions and final decisions will be implemented.

Faculty are encouraged to develop their leadership qualities by allocating them as in charges of various academics, co-curricular, and extracurricular activities. In doing research work, publications and examinations faculty are encouraged. Students with best academic performance are selected as class representatives and are encouraged actively to participate in different types of activities. The committees used for decentralization and participative management are listed below:

- Grievances Redressal committee and Women's Protection cell
- Anti-Ragging Cell
- NSS Cell
