Objective:-Viswanadha Institute of Pharmaceutical Sciences had successfully organized One week faculty Development Program on “**Quality by Design in Pharmaceutical Development**”. The main objective of the Programme is to achieve the quality products and positive performance testing, to ensure combination of product and process knowledge gained during development, to eliminate batch failures and minimize deviations and costly investigations in industry.

Topics covered:

- Quality target product profile (QTAA)

- To know the critical quality attributes (CQA).
- To know the risk assessment and design space
- Control strategy
- Product life cycle management and continual improvement

Outcomes of the Programme:

- To define desired product performance upfront.
- To identify product CQAs Design formulation and process to meet product CQAs.
- Understand impact of material attributes and process parameters on product CQAs.
- Identify and control sources of variability in material and process continually monitor and update process.
- To assure consistent quality Risk assessment and risk control Product & process design and development Quality by Design.

Objective:- Viswanadha institute of Pharmaceutical Sciences had successfully organized one week Faculty development programme on “**New strategies and Advancements in Good Pharmacy Practice to facilitate Regulatory Pharmaceutical care to Patients.**”

- 1) The main objective of the Programme is to highlight the need for increased Pharmacy Practice research in order to meet the policy aspirations for Pharmacy in India.
- 2) To lead Pharmacy Practice in the direction Pharmacist wish to take it.

- 3) To enhance Pharmacist involvement in the education of Patients drug use.
- 4) Disseminating knowledge, information, guidance on an aspects of basic and advances in Pharmacy Practice research.

Topics covered:

a) Strategies to be followed to improve patient care

- 1) Drug Therapy review
- 2) Ward round participation
- 3) Therapeutic interventions
- 4) Disease/Drug Counseling
- 5) Developing Medication related action plan
- 6) Collaboration with physician for rational use of drugs.

b) Barriers of Pharmaceutical care

c) Advanced software/resources available which helps to improve Pharmaceutical care

Outcomes of the Programme:

- 1) Explored new possibilities on how to improve Patient care.
- 2) Enhanced knowledge on how effectively Pharmacist interventions can be performed which further improve patient care
- 3) Gain an understanding on new Strategies and new resources available which help in Patient care.
