Objective:- Viswanadha institute of pharmaceutical sciences had successfully organized one week Faculty development programme on Recent Trends in Natural Products. The main objective of the programme is to gain knowledge about the compounds that occur naturally in plants and animals, identification and isolation of drugs from plant origin which can be extracted for their medicinal value, purification steps for isolated products, the benefits of herbal and other natural products.

Topics covered:

- Sources, impacts and scope of natural products
- Natural products in drug discovery
- Structure elucidations
- Synthetic and semi synthetic drugs from natural products
- Contributions and advancements offered through the natural products chemistry discipline.
- Some of the emerging trends and prospective goals in natural products chemistry.

Outcomes of the Programme:

- Isolation and purification of lead component present in the mixture obtained from natural source.
- Role of natural products in drug development.
- Natural products and their derivatives as a source of therapeutic agents.

Number of Participants: - 33

PROGRAM OBJECTIVE

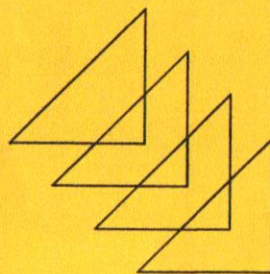

Viswanadha Institute of Pharmaceutical Sciences had successfully organized one week Faculty development programme on "Nutraceuticals in Modern era".

The main objectives of the Programme:

- To understand the basic concept of Nutraceuticals.
- To study dietary supplements.
- To understand about herbs used as nutraceuticals.
- To know about the drugs used in various ailments.
- To know about the herbal- drug interactions.

TOPICS

- History of Nutraceutical discovery.
- Classification and Chemistry of Nutraceuticals.
- Nutraceuticals in drug delivery.
- Contribution of Nutraceuticals in therapeutics.
- Nutraceuticals in disease management.
- Regulatory perspectives of Nutraceuticals.

Objective:- Viswanadha Institute of Pharmaceutical Sciences had successfully organized one week Faculty Development Programme on “**Recent Advances in Modern Analytical Techniques.**”

- To attain analytical information of the highest quality with low uncertainty, solving complex analytical problems derived from biochemical information in a myriad of different areas such as health, industry and the environment. To provide an understanding of chemical methods employed for elemental and compound analysis. To develop an understanding of the range and uses of analytical methods in chemistry.

Topics covered:

- Infrared Spectroscopy
- Nuclear magnetic resonance spectroscopy
- Mass Spectroscopy
- Chromatography
- Gas Chromatography

Outcomes of the Programme:

- Capable of interpreting the data obtained from analytical instruments for qualitative and quantitative analysis.
- Have knowledge of various instrumental methods available for drug analysis and their use.
- Acquired sound knowledge on working principle, instrumentation and application of different instrumental methods.
- To provide scientific understanding of analytical techniques and detail interpretation of results.

ABOUT THE PROGRAMME

ABOUT THE COLLEGE:

Viswanadha Institute of Pharmaceutical Sciences (VNIPS) was established in 2008. VNIPS is affiliated to JNTU (Jawaharlal Nehru Technological University) Kakinada and approved by AICTE (All India Council for Technical Education) & PCI (Pharmacy Council of India) New Delhi.

VNIPS has all state of art facilities required for running the courses in a best way. It has a team of well experienced, vibrant and dynamic faculty under the veteran leadership of Principal Dr. P. Uma Devi. Quality Education is the prime motto of VNIPS

WHY CHOOSE US?

VISION: To transform as reputed institution imparting Pharmacy education and Research in bringing out adept Professionals.

MISSION:

- Impart value based and value added pharmacy education to meet global standards.
- Groom the students towards achieving academic excellence and encourage Research towards social orientations with emphasis on health care.
- Nurture the budding Pharmacists in catering to the needs of Industry and Society.
- Strengthen interaction of the institute with Industry and Hospitals.

COURSES OFFERED:

- **Pharm.D, B.PHARMACY – 4 YEARS**
- **M.PHARMACY**
 - PHARMACEUTICS
 - PHARMACEUTICAL ANALYSIS .

PROGRAMME REPORT

Name of the Programme: One day Technical Development Programme on “**Handling of different Instruments**”.

Date: 18.08.2018

Details of the Resource Person

- Name: Dr. P. V. Madhavi Latha
- Designation: Associate Professor
- Department: Pharmaceutical Analysis
- Email ID: madhavipedapudi@yahoo.com
- Contact Number: 8500091682

Objective:- Our college had successfully organized a comprehensive One day technical development program focused on training technical staff in handling different instruments used in laboratory settings. The objectives and topics covered in the program were well-structured, aiming to impart both theoretical knowledge and practical skills. The outcomes also reflect the practical application of the knowledge gained. Impart basic practical skills in instrumental analysis.

- Teach correct operation of instruments.
- Provide in-depth knowledge and hands-on training in instruments like UV-Visible Spectrophotometer, HPLC, Fluorimeter, Flame Photometer, Colorimeter, pH meter, etc.
- Introduce troubleshooting techniques for instruments in the laboratory.
- Train regarding calibration and maintenance of instruments.
- Emphasize proper record-keeping and maintenance of log books in the laboratory.

Topics covered:

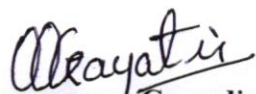

- Importance of different analytical instruments in separation, isolation, and identification of components in a mixture.
- Detailed study of instrumental parts of various instruments.
- Handling and operating procedures of different analytical instruments

Outcomes of the Programme:

- Ability to explain the theoretical aspects of key analytical techniques and instruments used in the laboratory.
- Proficiency in preparing specialized solutions such as buffers and indicators.
- Competence in handling instruments following Standard Operating Procedures (SOPs).

This program provided a well-rounded education, ensuring that the technical staff not only understand the theoretical concepts behind various instruments but also have the practical skills necessary for their operation and maintenance. The focus on troubleshooting, calibration, and record-keeping reflects a holistic approach to laboratory practices
